

Objective: To maintain the distinctive views on entering and leaving Pirton village and within the village itself.

Proposed Policy: Distinctive Views

- a. Development proposals should consider the visual impact of proposals on key views and vistas,(as shown on Map) and take special care to ensure they remain unspoilt.
Development that would adversely impact such views will not be supported.

- b. Where possible, development proposals should seek to enhance key views within, into and out of Pirton
